

KIDS SEE THE MATH. TEACHERS SEE THE RESULT.

enVision Mathematics Common Core ©2024 **NEW**

Savvas Learning Company
Grades K–5

enVision® is the first math series that combines problem-based learning with visual learning. *enVision*® focuses on deep conceptual math understanding aided by visual models, student-centered projects, 3-act tasks, and personalized learning. *enVision* offers comprehensive vertical alignment from Kindergarten through Algebra 2, ensuring schools and districts address all mathematical standards in the most effective way.

► **Focus on student understanding**
enVision Mathematics packs a unique one-two punch. Lessons start with Problem-Based Learning, where students must think critically about a real-world math problem, evaluate options, collaborate, and present solutions. This is followed by Visual Learning to solidify the underlying math concepts.

► **Make assessment part of differentiation**

Part 3 of each lesson combines lesson quick checks, observational assessments, and auto-generated reports to inform your teaching.

Meet Common Core Standards with intervention activities and resources for all learning levels

► **Improve your math teaching practices**

enVision Mathematics helps you improve your teaching with embedded strategies, methods, and practices. Math background for every topic and lesson is an anytime source for ideas and inspiration. Watch PD videos and lesson videos. Access online training

24/7. Get a fresh new perspective on teaching.

► **Make every lesson easier and better**
savvasrealize.com is home to *enVision Mathematics* digital content, assessments, student data, and management tools. Students can even access content offline and Realize will sync automatically to the online version.

KIDS SEE THE MATH. TEACHERS SEE THE RESULT.

enVision Mathematics Common Core ©2024 **NEW**

Savvas Learning Company
Grades 6–8

enVision Mathematics Common Core 2024 for Grades 6–8 is a problem-based learning plus visual learning. It's digital, print, and differentiated learning. All-new enVision Mathematics for Grades 6–8 makes math relevant to students, helping them see how it works for them in their everyday lives. Students see and experience mathematics with exclusive visual models, animations, 3-act tasks, Desmos graphing, and student-centered projects.

enVision Mathematics Common Core 2024 for Grades 6–8 empowers every teacher and learner through:

- ▶ **Conceptual Understanding**
Invite students to explore, collaborate, and visualize math to develop deeper understanding
- ▶ **Personalized and Adaptive Learning**
Build confidence and understanding by meeting students' individual needs.

▶ **Blended or One-to-One Approach to Technology**

Students see mathematical situations that are relevant to their lives and use technology that excites them.

enVision A|G|A Common Core ©2024

Savvas Learning Company
Grades 9–12

enVision A|G|A Common Core ©2024 is a brand-new high school mathematics program. It's built from the ground up for the Traditional Pathway of the Common Core State Standards. enVision A|G|A helps students look at math in new ways, with engaging, relevant, and adaptive content. For teachers, the program offers a flexible choice of options and resources. Customize instruction, practice, and assessments. Re-energize students and help them become more self-directed and independent learners.

- ▶ **Personalized by Design**
Mathematical modeling, adaptive practice, and individual study plans make learning more personal and relevant.
- ▶ **Learning for What's Next**
Create critical thinkers, problem solvers, and collaborators for future jobs and careers. enVision A|G|A balances conceptual understanding, procedural skills, and application.

- ▶ **Harness the Possibilities**
Leverage technology and save hours of time on administrative tasks. Use ready-made assessments, practice, remediation, and reports. enVision A|G|A makes it easy to customize everything.

enVision A|G|A Common Core ©2024 is a high school mathematics program built from the ground up for the Traditional Pathway of the Common Core State Standards.

ENGAGE

Mathematics takes on new meaning and becomes personal through relevance, engagement, and individualized learning pathways.

UNDERSTAND

Mathematics becomes a lifelong tool when curriculum balances conceptual understanding, procedural fluency, and application.

EMPOWER

Gain meaningful insights and leverage the powerful technology to make every lesson and assignment perfect for you.

Student Companion
This optional worksheet actively engages students in class:

- Fosters conceptual understanding with Habits of Mind questions.
- Skilifies understanding and increases students' ownership with problems to try on their own.
- Helps consolidate students' understanding with sections for note taking.
- Provides support for lesson explorations, example problems, formative assessment, and math modeling lessons.
- Available in Spanish for Algebra 1

Habits of Mind
enVision A|G|A emphasizes the development of students' mathematical habits of mind. Probing questions throughout instruction require students to develop the thought processes and skills used by proficient mathematical thinkers.

Practice & Problem Solving
enVision A|G|A features a uniquely balanced exercise set to ensure students have ample opportunity to develop conceptual understanding and procedural fluency, as well as apply math to solve problems.

UNDERSTAND
Develops conceptual understanding of lesson content by explaining reasoning, constructing arguments, and analyzing errors.

APPLY
Requires students to apply math to solve real-world problems.

PRACTICE
Builds procedural fluency with lesson content.

ASSESSMENT PRACTICE
Every lesson includes:
• Next Generation Assessment Practices
• SAT/ACT Practice
• Performance Task

The Realize Reader Interactive Student Edition provides all Student Companion questions in a seamless interactive digital experience.

McGraw-Hill My Math ©2018

McGraw-Hill
Grades PreK–5

McGraw-Hill My Math is giving you the **rigor, personalization, and student engagement** you and your students need to be successful with the Standards– and have fun while achieving that success! This completely re-imagined approach to elementary math learning is fully aligned with Standards and Mathematical Practices, so you can focus on what you love most: inspiring a love of learning.

- ▶ **Challenges and engages your students** in a way that inspires them to embrace the power of mathematics through real-world applications and experience just how fun math success can be.
- ▶ Students **communicate mathematically** by beginning each chapter with a hands-on content with visual vocabulary cards, Talk Math opportunities, and Dinah Zike’s Foldables right in their own book.
- ▶ You can **optimize, customize, individualize your classroom planning, presentations, and differentiated instruction** for every student.

Reveal Math

McGraw-Hill
Grades K-5 ©2022
Grades 6-12 ©2020

Reveal Math, a GK–12 core program, empowers educators to uncover the mathematician in every student through powerful exploration, rich discourse, and timely insightful differentiation.

- ▶ Math classes become exciting starting from here! **Reveal Math supports both low-tech and high-tech classrooms.** The blended print and digital instructional model captures the best of both modalities and brings them together in a seamless experience that makes math meaningful for your students.
- ▶ In *Reveal Math*, the Teacher Edition centers around opportunities to

promote mathematical discourse, collaboration, and a positive student mindset with **student-centered instructional tools.**

- ▶ *Reveal Math* empowers teachers with powerful tools to **differentiate instruction and English language support**, allowing teachers to deliver insightful instruction that reaches every learner.

The **STEM Career Kid video** introduce a STEM career and provides an overview of the job responsibilities.

The **Math in Action** videos apply the unit math content with the STEM career focus to bring the content to the real world.

STEM Project Cards allow students to dig deeper creatively and apply their skills to learn more about the STEM focus within the unit.

Glencoe Math ©2016 Course 1, 2, 3

McGraw-Hill
Grades 6–8

Glencoe Math Course 1, 2, 3 is a powerful Grades 6–8 math program that makes math real for students. The three components of rigor are supported throughout the program and are embedded in resources, lessons, and practice assessments.

► Rigor is built-in and supported throughout the program. **The three components of rigor — conceptual understanding, procedural fluency, and application** — are embedded in resources, lessons, and practice state assessments.

► **Interactive resources available with every lesson**, the tools are used to support instruction, practice concepts, and reinforce learning.

► The adaptive learning technology of ALEKS® paired with the rich content of Glencoe Math provides a curriculum solution that is differentiated for every student.
